In reference to European Regulation EC No. 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and the potential presence of Substances of Very High Concern (SVHC), we are providing the following information to our customers.

Macnaught Pty. Ltd. is fully aware of the REACH regulation and the SVHC list and updates that have been published by the EU. Macnaught Pty. Ltd. is primarily a supplier of "articles" and does not produce or sell any of the listed substances in their homogeneous form.

We have evaluated our products and, to the best of our knowledge, they do not contain any substances included on the SVHC list in a concentration above the threshold of 0.1% by weight*. Our suppliers of materials, parts, and components, have also evaluated and communicated information regarding the presence of SVHC in their products.

Macnaught Pty. Ltd. assures its customers that our products are in full compliance with the EU REACH requirement. We review the ECHA website on a continuous basis to obtain the latest information regarding changes or additions to the regulation and/or SVHC list.

We will take all necessary action to provide notification to our customers if any changes occur in our products or any relevant changes are made to the regulation that will require further action.

If you have any questions regarding this information, please do not hesitate to contact us.
Sincerely,

For and on behalf of Macnaught Pty. Ltd

Quality Assurance Manager
Revised: 25/9/2012

*The exceptions to the above statement are articles '**AR2006/AR2007/OA2006**' that could contain max 0.2% Lead in the yellow color agent.
